# The team of experts seeing us through

**Joelle Simpson, MD, MPH, FAAP,** is a pediatric emergency medicine physician at Children's National and medical director for Emergency Preparedness. She also serves as incident commander for its Emergency Department COVID-19 response and is an executive committee member of the American Academy of Pediatrics' Council on Children and Disasters.

**Tress Goodwin, MD,** is a combat hospital veteran and a pediatric emergency medicine physician at Children's National. She is also the hospital's assistant medical director for Emergency Preparedness and the incident commander for its Emergency Department COVID-19 response.

**Ray Fabius, MD, FAAP, FACPE,** is a distinguished fellow of the American Academy of Physician Leadership, a population health expert, and a board-certified pediatrician. He co-founded and is CEO of HealthNEXT, and for the past 30 years has helped some of the biggest companies in the U.S. with their health care strategies and emergency response plans.

# Health and safety guidelines

## New procedures for families and staff at pick-up and drop-off

### Drop Off

#### One designated family member will:

- Wear a face mask in the center.
- Drop off children in the lobby one family at a time.
- Check and share their child's temperature with staff.
- Attest to their child's wellness when they sign in.

#### We make our communities safer by:

- Sanitizing pens and thermometers after each use.
- Monitoring staff temperatures daily.
- Reserving classrooms for staff and children only.

### Pick Up

#### One designated family member will:

- Wear a face mask in the center.
- Pick up children in the lobby one family at a time.
- Take all personal items home for cleaning.

#### We make our communities safer by:

- Having staff accompany children from the classroom to pick-up.

# Health and safety guidelines

## Procedures for teachers and staff during class

### In Class

#### All day long, we'll:

- Wash our hands regularly and when we enter the classroom.
- Socially distance classrooms when possible.
- Sanitize and rotate toys, playground equipment, and other high-touch surfaces regularly.
- Play outside one class at a time.

#### We make our communities safer by:

- Requiring all staff to wear face masks.
- Designating a sick space for unwell children until they can be picked up.
- Suspending family style dining.
- Napping at least 6 feet apart, head-to-toe or toe-to-toe.
- Taking field trips only where there is no contact with other classrooms or the public.

# Reconnecting with friends, learning, and community

We all have a little rebuilding to do. For kids, that means reconnecting with friends and community is just as important as learning.

Our Education team created a special 4-week curriculum focused on social and emotional support to help children:

- Practice skills for re-establishing routines, relationships, and independence.
- Receive personalized lessons tailored to where they are academically since this break from traditional schooling.
- Have fun and learn with friends their age in small group activities.
